## INTRODUCTION

Hi Folks,

Welcome to the latest edition of the monthly Newsletter.

We have 2 New Reviews Betting Speed Evolution and Lay Bet Dominator. There are no Final Reviews this month.

Now that the new football season form has settled down we can see how the new systems perform and we will be reviewing a number of new systems soon so look out for emails with details of those as they get underway. We also hope to have a few other new reviews for you.

We'd like to hear from you, please contact me by e-mail via the Bloggers Corner at [news@bettingsystemtruths.com](mailto:news@bettingsystemtruths.com)

# Betting Speed Evolution – Introduction

20th September 2012

## Sergeant Lucian – Introduces Betting Speed Evolution

Hi Bloggers,

Here is a review of a new product Betting Speed Evolution from Michael Wilding founder of Race Advisor.

First I think you all know about this newcomer as the product was high promoted and the result is simple – Sold Out.

We will review Betting Speed Evolution and after the review period Michael has agreed to make a number of licenses available for a limited time for BST readers. Prices are 127 pounds for one year license and 197 pounds for a lifetime license.

Starting point for Betting Speed Evolution software is that "Speed is a MASSIVELY under-used factor in horse racing in the UK".

With unique speed ratings, information that nobody else use in the UK the software come to live with a single click button for selections. This is standard mode but also software offer Advanced Mode.

So inside Betting Speed Evolution users can: quickly find top contenders in a race, instantly determine their average speed figures, see the minimum speed a horse needs to achieve to have a chance at winning the today's race, immediately visualise whether a horse is improving or declining, drill down to all details of previous races

under similar conditions for the last years, keep track of selections by adding them to selections list, export selections to excel and other spreadsheet programs, or to pdf.

Software comes with a pdf containing details about the process behind the software, a bonus pdf system, a pdf with evolution of the software on back selections for 2012 before launching the software with a 28% ROI and 142.6 point profit at level stakes and of course with the manuals for standard mode and for advance mode and a webinar which goes through how an user can use Betting Speed Evolution in advanced mode to analyse a race like a pro.

The software is not only a auto-selections program it is also a powerful analysis tools and you can learn how to use it from advance mode manual.

The advance mode is for users who want to add specific filters and all this is about the user choice.

The review will use standard mode and use software selections with odd condition – maximum 10 odd for both back and lay.

You must know that to operate standard mode is very easy and you can get selections exported in GHB and use GHB to place all the bets. All the time is under 10 minutes for running and setting GHB.

Staking plan for use with the auto-selections found by the software – 2% of bankroll for the back selections and 0.5% of bankroll for the lay selections. Betting on both the recommended is 1% of bankroll on each selection. Re-calculate stake size after each bet or re-calculate stake size each day.

So for this review I'll use 3 banks and BSP prices.

One of 100 points on back bets with 2% staking.

Second bank will be 100 points on lay bets with stake of 0.5%.

Third bank will be 100 points with 1% stake on both lay back bets.

Also I'll add a 100 points bank for place bets with 2% staking but this will not make part of final review. Max odd condition will be under 3.3 on place market.

The initial review will be for 56 “betting days”, and may be extended to 84 “betting days”, depending on its performance.

Thank you for your time and I hope you enjoy the review.

## Lay Bet Dominator – Introduction

*Sgt Colin Introduces Lay Bet Dominator*

Hi, Sgt Colin here, with my latest review for BettingSystemtruths.com. I am going to review the Lay Bet Dominator service, a straightforward horseracing tipping service which selects horses to lay on the betting exchanges. Part of the Steve Davidson stable of services, this is intended as a low liability service, selections must have odds at 3.0 or below for bets to be placed. The selections are provided by e-mail (usually the previous day to racing) and on a members only website, where the results are also published.

The service currently costs £35 per month, or £90 per quarter, or £175 for 6 months (with 1 month added on!).

The website suggests 3 potential staking plans;

a) **fixed liabilities**, whereby whatever the odds the liability remains the same on each bet in £ terms.

- b) **% liabilities**, whereby the liability on each bet is a fixed % of the betting bank
- c) **fixed stakes**, where the profit target for each bet remains the same in £ terms. Thus the higher the odds, the higher the liability.

The initial marketing suggests that bets should be placed 1 minute prior to racing, or at SP. The former requires a bot to run effectively, and it is much simpler to place the bets using Betfair's SP. Maximum odds and the liability can be set for each bet, with a minimum liability of £10. Fixed stakes (profit target) betting would need a bot to be truly accurate at SP. All of the results are published using Betfair SP.

I shall therefore be monitoring the performance of the Lay Bet Dominator service, using Betfair SP as the odds, and for each of the 3 staking plans, starting with a 100 point bank and staking 5 points (Plan a), 5% of the bank (Plan b) and aiming for 5 points profit (Plan c).

I look forward to seeing how Lay Bet Dominator performs over our trial period, which will initially be 56 days, and which may be extended to 84 days if the results are promising.

This is a quick insight how each review is performing.

**Systems:** These are a set of rules that are used to make selection criteria. These rules are hard and fast without room for interpretation or discretion.

**Methods or Strategies:** These services are based upon loose rules or advices that are applied, with skill, by the user of the service.

**Tips:** You receive tips from the service provider of back or lay bets and you back the tips to the recommended stakes or to level stakes.

# League Table of Reviews

[Return](#)

A reasonable way of comparing the performance of systems is to work out the profit (or loss) as a percentage of the starting bank. Obviously this table doesn't replace reading the reviews, because *profit as %age of bank* is not the only factor in judging a system. Nevertheless, it is a valid at-a-glance way of bringing the mass of data together. The league table now includes systems that have finished their reviews as well. We have twenty three reviews that have made a profit of over 15%.

System Reviewed	Start Bank	Total Profit /Loss	Profit as %age of Bank	Position Last Month	Position This Month
Betting Bubbles	50	148.75	297.50%	1	1
