League Table of Reviews

[Return](#)

A reasonable way of comparing the performance of systems is to work out the profit (or loss) as a percentage of the starting bank. Obviously this table doesn't replace reading the reviews, because *profit as %age of bank* is not the only factor in judging a system. Nevertheless, it is a valid at-a-glance way of bringing the mass of data together.

The league table now includes systems that have finished their reviews as well.

We have twenty six reviews that have made a profit of over 15%.
