Race Ratings Pro Day 22

Race Ratings Pro Day 22 by Sgt George

Hi Folks

A lot better day for the Authors approach another winning treble and 3 doubles plus 2 forecasts meant a profit of 37.96 points for the Exotic bets, and a 3.06 gain for win bets, no lays today.

My approach made the same profit as the authors for Exotic and Win Bets but i also had one winning lay for a small 0.95 points profit as well.

Racing Profit Booster - Introduction

Sgt Colin Introduces Racing Profit Booster

Hi, Sgt Colin here, with my latest review for BettingSystemtruths.com. I am going to review the **Racing Profit Booster** system, an **arbitrage** horse racing software package from the extensive **Steve Davidson** stable. The software automatically compares the odds on UK and Irish racing from 16 high street **bookmakers** (those on Oddschecker) with the lay bet odds on **Betfair**. It flags up where, after Betfair commission, you can make a profitable trade - i.e. the odds at the bookmakers are higher than the odds available to lay on Betfair.

The system costs a little under £130 for 12 months, and for that you get a license to operate software which works from a single computer you own on an external server. The software works daily from 10.00 am whenever horse racing is operating.

Monitoring the potential of Racing Profit Booster will require some subjectivity - clearly the profitability will vary day to day, and depends upon how often you are able to access the system. Arbitrage betting usually requires you to have a large number of **bookmaker** accounts, and can easily lead to you having your accounts closed or restricted. The system comes with a pdf suggesting ways of avoiding this fate!

I have been running the Racing Profit Booster system for a couple days now just to get used to the software before i start the review , and have been surprised how many opportunities come up. The system was extremely easy to set up and to operate, although I have a couple of concerns over the flexibility of the arb staking calculator.

I look forward to seeing how the service performs over our trial period, which will initially be 56 days, and which may be extended to 84 days if we consider that adds value.

Hardcourt Heroes - Final Review

HARDCOURT HEROES

Bringing you Big Profits from NBA Basketball

Hardcourt Heroes – Final Review

Hi Bloggers,

To recap, Hardcourt Heroes is a tipping service offered by a gentleman named Marcus Young where bets are sent daily via email. Hardcourt Heroes only recommends back bets in the moneyline (win/lose) markets, with two types of bets provided, straight bets and multiples.

The author recommended a 25-point starting bank to be more than sufficient to comfortably absorb the rare but inevitable losing run, and due the high strike-rate the author recommended if you want to place both the straight bets and parlays in one combined bank then a 25-point bank to start should still be more than sufficient.

To sum up, Hardcourt Heroes has been a disaster during the review period. I have stopped the review before the usual 56 day first hurdle as the 25 point bank had been exhausted. Not much more to say except burning up a 25 point bank in 47 days on mainly odds on bets is not giving me the vibe of being a good service. Nothing personal against the provider, he was prompt, courteous and up front about it, just didn't produce the goods.

So altogether there were 107 bets, 56 winners for a strike rate of 52.3 per cent on the singles. This resulted in a loss of 16.9 points (\$1,692). The parlays had 41 bets for 14 winners, a strike rate of 33.3 per cent resulting in a loss of 9.1 points (\$911).

So sorry Marcus, we have to fail this one.

Start Balance: 25 points

Total P/L: -26 points

Final Balance: -1 point

Start Balance: \$2500

Day's P/L: -\$2603

Running Balance: -\$103

***All bets are recommended at level stakes from a 25 point starting bank.**

*** Odds quoted are the average odds available from a sampling of 20 bookmakers at the time the email is sent.**

League Table of Reviews

[Return](#)

A reasonable way of comparing the performance of systems is to work out the profit (or loss) as a percentage of the starting bank. Obviously this table doesn't replace reading the reviews, because *profit as %age of bank* is not the only factor in judging a system. Nevertheless, it is a valid at-a-glance way of bringing the mass of data together.

The league table now includes systems that have finished their reviews as well.

We have thirty three reviews that have made a profit of over 15%. And we have a new number one but will it stay there we shall have to see.
