Soccer Over's - Reviewer Sgt Rich

As the name applies this service provides football selections and concentrates on the Over 2.5 goals market. As per the author he had been crafting a powerful bet selection formula for many, many years and experienced an amazing breakthrough in October 2008 which he will never reveal. This one is going to be tested by our new reviewer Sgt Rich and this one is going to be right up his street as he is into soccer betting.

Now this service provides selections throughout the year, even when the UK season is finished. With the e-mail tips comes the advised odds and the relevant bookmakers, Sgt Rich will report profits to both Betfair and the advised prices. The service costs £30 a month and £70 for 3 months and has a 7 day free trial.

Form Finder Pro Software Review Summary - Reviewer Sgt Philip

After some discussion and deliberation it was decided that it would not be practical to review Form Finder Pro over a 56 day period, as there are simply too many variables to make it a feasible option and to evaluate a profit or loss. However, there are a great many plus factors with Form Finder Pro for \$10 (approx £7). The ratings do provide winners and lay bets with the added bonus of forecast betting, you can also use the Form Finder Pro system for place betting.

Sgt Philip said he would personally use Form Finder Pro for lay betting as the negative rated horses do seem to lose consistently, but he would limit the lay price to a maximum of 5.5 on Betfair, but if you wanted to go above this figure that's up to you, but the losses could be higher and recovering your bank will take longer! The other option that he would favour is forecast betting, this is more of a low risk higher reward ratio, but don't expect every race to produce a forecast.

There are many ways Form Finder Pro can be used and it is a mechanical process (no emotion required!), it also fairly quick and simple to use which is another bonus. It could be used to assist your selections in conjunction with another system you may use. Sgt Philips own personal opinion, is that he will continue to use the Form Finder Pro software to rate races and make his own decisions regarding lay bets, forecasts he will go with the ratings.

Just one note regarding comments on the blog, Sgt Philip did not have any problems with loading or using the Form Finder Pro software and not a virus in sight. There are directions on the download page telling you what to do if you're anti virus software detects Form Finder Pro as Trojan threat so you can still load this interesting software.

So the overall view was that the Form Finder Pro software would be a good addition to any betting portfolio and was a snip at \$10 (£7), however no one has any idea how long this price will last.

Failed and Jailed

The Full Circle System – Reviewer Sgt Dave

The system is no longer available the sales page is down although you are redirected to Sportsworld Publication Homepage where a revamped version of the Full Circle is available called The Full Value but only as a telephone service, BST is currently investigating some issues encountered and if anything concrete is found you will be the first to know. So onto the 63 day review what can one say well a 14.95 points loss with 151 selections producing 31 winners this was split into the following:

	Selections	Winners	Strike Rate
Win Only	85	25	29.41%
Each Way	55	6	10.91%
Place Only	11	0	0%
	151	31	20.53%

Most of the selections were win bets and the average price of those was just over 3.00 BFSP, one of the changes to the rules to on the website is to back all horses to win well that would have meant a further 17 points or so loss none of the place bets won and only 6 of the E.W won. The only good thing about this system it's very easy to find selections but though this has performed better than a lot of SWP products nonetheless it still lost money, and of course the product has been removed so Sgt Dave gave it 2 stars and put it in the Jailed and Failed section.

Upto day 63	This Period	Cumulative	
	P/L	40 point Start Bank	P/L
	- 13.31 points	25.05 points	-14.95 points

Betting Mole Scam Review

The betting mole is once again offering you dream houses, dream holidays and dream cars on a plate for £35.

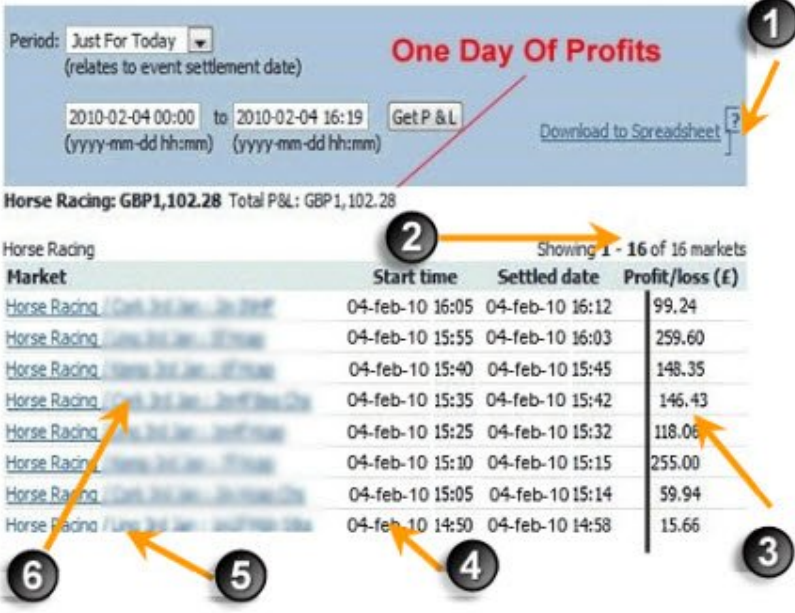

The Betting Mole shows you a Barclays bank account screenshot. The account Screenshot may well be real because these criminals might have this kind of money in their accounts after ripping off so many people before. The thing is although the font they have used on the statement is quite scarily close to the real thing, the name John Mitchell has been implanted onto it.

The Betting Mole belongs to the same people that launched Betfair Wizard. After heated conversation with these people in the past they don't believe they are doing anything wrong because they are offering a 60 day money back guarantee. The way it works is they know they will get 30% maybe even higher refund rate but they will always count on that 70% time and time again so they don't care about knocking up a launch that looks like an impressive website and the real deal. Believe this, that a site like Betting Mole can be made for \$100 and the copy regenerated from past launches. Add a Clickbank button contact lots of other Click bank marketers that don't care what they send to their newsletter lists and they just made another 20 – 50 thousand pounds," not a bad little earner" as Dell Boy used to say.

Please see the Betfair image proof on the next page and the damning evidence that betting mole is just another mocked up scam.

News About All The Reviews

This section covers all the current reviews being conducted and just gives a quick insight how each review is performing. All the figures quoted below cover the period October 4th to October 10th.

Betfair ATM - Reviewer Sgt Dave

Another 7 winning days out of 7 for this strategy and a profit of 13.23 points for the period, Sgt Dave had a total of 44 selections of which 40 were winning bets that is a Strike Rate of 90.91%. So a promising review so far for Betfair ATM with a profit of 33.44 points for the 3 weeks of the review and from 141 selections, 121 were successful this an 85.84% Strike Rate this is slightly higher than the figures quoted on the products website.

Coopys - Reviewer Sgt Thomas

A comeback for the service making a 7 points profit in the last 7 days, so the overall deficit is only 7 points now. For the period there were 17 bets producing just 3 winners but at least the winning bets were quite rewarding. Anyway very early days for the service yet.

Dreamlays - Reviewer Sgt Brendan

The service had 38 selections from Day 62 to Day 70 of which 33 were winning Lays giving a Strike Rate of 86.84% but despite a good percentage it still recorded a a loss of £69.90 or 6.99 points. With just 14 days to go this one needs a miracle.

Fisher Roulette Software - Reviewer Sgt Tommy

Well the dreaded Day arrived and on Day 11 the big loss came and it was with Bet 365 and Sgt Tommy was near enough wiped out losing 1963 points. Luckily he has the Bet Voyager account still going and that is the one he will be reporting on from now on.

Format Racing - Reviewer Sgt Tommy

4 winning days from 7 meant a profit of 9.86 points for the week but still a lot of deficit to make up but at least there is a glimmer of hope. For the period a total of 118 races produced 68 winners so will this improved form continue in the remaining weeks? We shall have to see.

Graeme Murray Gold Lays - Reviewer Sgt Thomas

Well eventually Plan B got a selection and it was a winning one, Plan A had 2 selections and both obliged for the software. 7 out of 9 days had no selections so you will need patience with this one but at least it is in profit.

No1 Lay System - Reviewer Sgt Dave

An improvement over last week with 2 qualifying selections from a possible 7 and both obliged so a profit on the week of 1.90 points. Really is a case of slowly but surely with this one let's see if it can hit the 20 points profit by the end of the review.

Laying Autumn Profits - Reviewer Sgt Tony

Things are starting to look good for this one now after a shaky beginning, up to Saturday 9th for the 6 day period the system had 19 selections which produced 15 winning lays a Strike Rate of 78.95% but owing to the lower odds of selections it produced a profit of 8.05 points for the period.

Lunchtime Profits Alert - Reviewer Sgt Jon

The good news is that Sgt Jon got 2 selections on Friday 8th unfortunately both bets lost. On Saturday he received a mobile text with 1 selection which is to be played on 17th October. Now with the messages come recommended bookmakers and odds. As people may get different odds depending when they place their bets, Sgt Jon has decided to do the review to Strike Rate not points profit.

Michael's Place Lay Formula - Reviewer Sgt Thomas

Not a lot of action with this one there was actually 2 selections both winning lays for the Period Day 5 to Day 14 but the selection last week on Day 3 was not a qualifier so Sgt Thomas has made the necessary adjustments on the website and to keep continuity with last weeks newsletter we will class it as being only 1 selection this week.

Upto day 14	This Period	Cumulative	
	P/L	100 point Start Bank	P/L
Level Stakes	+0.95 points	103.80 points	+3.80 points

Place Profits - Reviewer Sgt Jon

Place Profits 1 continues to do well while its companion Place Profits 2 struggles. For the week there was 19 selections with 10 winning bets, as per Sgt Jon if it was not for the SP rule it would have had more selections and more profit. Anyway after 15 days combining the two services you would still be 8.70 points up so not a bad start.

Upto day 15	This Period	Cumulative	
	P/L	100 point Start Bank	P/L

Racing Secrets Exposed (Tips) - Reviewer Sgt Rob

Sgt Rob made two postings that covered Days 62 to Day 74 during this period the service had 13 selections of which 10 were winning lays and profit wise it near enough broke even on both odds. After 74 days this service has been somewhat disappointing and been stuck in the red for a while now, with only 10 days to go it is looking grim for this one.

Racing Winners - Reviewer Sgt Thomas

From Days 60 to 68 the system had 15 selections and only 1 winner which resulted in a loss of 29.54 points. The system is still 68.47 points up and as it has shown before it will probably hit back with another good priced winner real soon.

Soccer Overs - Reviewer Sgt Rich

Sgt Rich will be working to a 100 point bank and most bets will be to 10 point stakes. Anyway the service has got off to a good start with 6 winning bets from 7 selections and made a profit on both the advised odds and Betfair.

Betting Advice

Systems and Strategies

Just a small couple of articles this week based on some observations on the blog a lot of people think that a Betting Method or Strategy is the same as a System they are not. A System is a hard and fast set of rules that cannot be changed come what may, if you started to change those rules the system would not work, you could possibly add some of your own rules and improve the system but you could not change the original set of rules.

So onto a Strategy or method they may have some rules but more often than not they are guidelines written by the author on how he/she does their betting. Now because they are not written in stone at times the guidelines sometimes get misunderstood or in some case the reader panics because they are used to be given clear cut instructions. In most cases a method has an underlining base eg: Betfair ATM is to bet horses to get placed when a lot of the risk is taken out but at the same time retaining some value. Now people say when am I supposed to place my bet? what you have to do here is look at it in a logical manner, early part of the race yes you would get a better price but you have a lot more risk as the race has not developed yet. Towards the end of the race yes that would be low risk but the prices are way too low so that is not much good, So by the laws of deduction we have now eliminated 50% of the race. But at what exact time do I place my bet?, the answer to that, is Horseracing an exact science? if horses all ran to their times, form etc it would be easy, of course it is not and not all races are run exactly the same. So a System would probably say at this exact time back the horse providing rules A,B and C are fulfilled would it work sometimes but consistently not likely. So that is why the method allows leeway and the guidelines are loose because they cannot be rigid. This scenario applies to most methods and strategies also because they are more flexible users can adapt it easier to their style of betting this happened with Golden Key Method 2 a lot of the bloggers adapted it and had good success. So folks Systems have their uses, but don't be afraid of methods and strategies to some extent they offer you more scope and can be tailored better in a lot of instances to your lifestyle and betting pattern.

Mix and Match

I got this idea when looking at the Form Finder Pro and reading Sgt Philip review. Why not combine a system with ratings or even methods. As some of you may remember the Van Der Wheel method was published in one of our earlier newsletters and it combined class ratings with adding form figures and then speed/form ratings of your choice to then get possible selections, so this combined ideas from different systems/methods and when used correctly proved to be profitable.

Anyway whilst looking at the Form Finder Pro website I saw one race example showing Zoomerlust clear top rated by the software; now this was a lay bet for Betfair Miracle and if you had used the ratings with a system would you have layed Zoomerlust the answer would most likely have been no, which is good because it actually won the race. Now Betfair Miracle has its own set of rules which is not related to the Racing Post, so by looking at the race from two different angles and if both agree this should make the bet stronger. This is just a thought you could use the ratings with other back or lay systems not just BFM that was just an example. Maybe our quest for the one could be fulfilled by combining just giving food for thought; we should always keep an open mind or we may miss out on opportunities.

Next Week

Well hopefully we still have a couple more New Reviews to come next week and at least 1 Final Review too. Of course we are always on the lookout for any articles that would make interesting reading for you folks and don't forget you can contribute your own thoughts, views whatever through Blogger's Corner.
