INTRODUCTION

Hi Folks,

A very quiet week, no Final Reviews and no New Reviews – sorry!

Also, please accept my apologies for the links in last week's newsletter. The links to the review pages stopped working the day after the newsletter was distributed when the website system was updated to a newer version of WordPress. Anyway, I think this week's newsletter has links that work ok.

The results, league table and profitability graph include Monday evening reports, making the newsletter as up to date as possible when you receive the newsletter on the Wednesday morning.

Turf Wars has had its second unsuccessful week, but it still shows a 152% profit! [You can get your FREE 5-day trial of it here....](#)

We'd like to hear from you, please contact me by e-mail via the Bloggers Corner at rich@bettingsystemtruths.com

Tips: You receive tips from the service provider of back or lay bets and you back the tips to the recommended stakes or to level stakes.

League Table of Current Reviews

[Return to Contents/Index of this newsletter](#) 

The systems under review have different starting banks, different stakes and some systems have variable stakes. A reasonable way of comparing the performance of systems is to work out the profit (or loss) as a percentage of the starting bank.

I've colour coded the reviews that are the currently most successful, with the colour of their profitability graph to make them easier to spot.

Sprint Lay Expert has improved again this week. After a series of losses, is Turf Wars in trouble, despite still being top of the table?

Obviously this table doesn't replace reading the reviews, because *profit as %age of bank* is not the only factor in judging a system. Nevertheless, I think it gives a valid comparison and an at-a-glance way of bringing the mass of data together.

System Reviewed	Start Bank	Total Profit /Loss	Profit as %age of Bank	Position Last Week	Position This Week
Turf Wars Staking System	100	152.63	152.63%	1	1
Sprint Lay Expert	1000	1098.00	109.80%	2	2
Backing Star Plan C	100	59.95	59.95%	3	3
Betfair Success Formula	100	59.64	59.64%	4	4
Betting Profits Soccer	1000	446.62	44.66%	5	5
The Low Lay	20	6.59	32.95%	6	6
RebelBetting	2000	355.75	17.79%	7	7
My Lucky 15	200	-4.23	-2.12%	9	8
The Legacy & Saver System	100	-6.92	-6.92%	11	9
Full Time Betting Income	200	-18.35	-9.18%	8	10

Profitability Graph

[Return to Contents/Index of this newsletter](#) 

Here is a graph of the profit being made by the front-runners as a percentage of their starting bank. This gives a week by week comparative view of their progress.

It gives a representation of the volatility or dependability of each system. Ideally we would want a graph that increased each week by roughly the same amount. If a system or tipping service could produce that, then we would really have a winning review!

Turf Wars profit went down for the second week in a row! Sprint Lay Expert has gone up again this week.
