INTRODUCTION

Hi Folks,

A quiet week with just one Final Review. Rate the Races has been passed by Sgt Lucian.

In the Current Reviews section of this newsletter, the LayTheOdds reviews are in violet to help differentiate them from the BettingSystemTruths reviews that are in blue

The results, league table and profitability graph include Monday evening reports, making the newsletter as up to date as possible when you receive the newsletter on the Wednesday morning.

Bonus Bagging, from LayTheOdds, has shown great profit in the six weeks of the review. Sprint Lay Experts is doing well again and keep an eye on RebelBetting and Tommy's ABSX Method.

We'd like to hear from you, please contact me by e-mail via the Bloggers Corner at rich@bettingssystemtruths.com

Rate The Races – Final Review

1st August 2011

Sergeant Lucian – Reviews Rate The Races

Passed – and approved

Rating: 

Hi Bloggers,

Rate The Races reach the 84 day review and here are the **Final Review**.

As you know, Rate The Races , Deluxe Version, is a piece of software from the Steve Davidson Stable, and is created by Michael, who brought us, amongst others, Pro [Betfair](#) Trading, reviewed on our other site [laytheodds.com](#).

Price for this piece of software is 39.97 pounds and you get one license for one computer. With the software, comes three strategies.

From the beginning we chose to review the first two strategies on both UK and Irish races.

The seller recommend only UK racing on all three strategies.

Now Strategies step by step:

Strategy 1- UK and Irish Races – FAILED

After the initial 56 days review this **strategy failed**.

Starting with 100 points, on day 56 the strategy had brought the bank down to just 6.61 points.

Strategy 1 - UK Races – Not included on final review

From the day 57 I've run the strategy only on UK racing, I've extract the results from Strategy 2. On extended period starting from bank of 100 points the final bank was 115.91 with **over half point profit per day**.

Now back on official review Strategy 2.

Strategy 2 - UK and Irish Races - Rating:

Starting Bank = 100 points

Running Bank after Day 84= 120.66 points (plus 20.66 points)

ROI = 0.89

I rate this strategy with Two and a half stars. There is a clear difference between the first strategy and the second. This difference, **do NOT stop at 10 points loss**, makes this strategy a pass over the 84 day review.

Strategy 2 – NO IRISH Races –

Rating:

Starting Bank = 100 points

Running Bank after Day 84= 159.97 points (plus 59.97 points)

ROI = 2.71

After day 56 this strategy was reviewed in two ways with and without IRISH races and the difference is clear to only use on UK races.

Strategy 3 – STEP 1,2,3 –

Rating:

Starting Bank = 1000 points

Running Bank after Day 84= 1422.50 points (plus 422.50 points)

Around **five points profit per day** on this strategy. I give four stars because over 400 points profit was made in just 30 days. Just a word of

caution, although the overall profit of 422.50 pts is excellent, as I said it was made during a 30 day period, for the remainder of the review it was fairly flat.

Now about the rating software. I rate the **Rate The Races software with 3.5 stars stars**. This is a great tool for everyone who bet or trade on horse races. As I've said, from the seller's words – **the selections and the ratings can be used with other back systems and for trading**. Also the Rate The Races can spot a lot of tricasts.

In conclusion, if you have a 100 points bank the strategy for you is Strategy 2 – UK Races only. For 1000 point bank, clearly, the recommended strategy is Step 1,2,3 on UK races.

Regards,

Sgt Lucian

League Table of Current Reviews

[Return to Contents/Index of this newsletter](#) 

The systems under review have different starting banks, different stakes and some systems have variable stakes. A reasonable way of comparing the performance of systems is to work out the profit (or loss) as a percentage of the starting bank. Obviously this table doesn't replace reading the reviews, because *profit as %age of bank* is not the only factor in judging a system. Nevertheless, I think it is a valid at-a-glance way of bringing the mass of data together.

I've colour coded the reviews that are the currently most successful, with the colour of their profitability graph to make them easier to spot. Some of the older or suspended reviews have been taken off the graph.

Sprint Lay Expert has just managed to keep Bonus Bagging off the #1 spot.

Profitability Graph

Here is a graph of the profit being made by the front-runners as a percentage of their starting bank. This gives a week by week comparative view of their progress.

It gives a representation of the volatility or dependability of each system. Ideally we would want a graph that increased each week by roughly the same amount. If a system or tipping service could produce that, then we would really have a winning review!

Bonus Bagging is the most consistently profitable. RebelBetting and Tommy's ABSX Method, although at a lower level, are starting to look consistent.

We've had two questions this week for Gordon:

Dear Gordon,

Like the sound of this guy, but after having caught many colds with systems (not since I have been reading BST reviews though) could you please have a look at this for me, much appreciated

What Happened to the 2020 Cricket Review?

For several weeks now there have been no results reported on the 2020 Cricket Review, Gordon has [clarified the position...](#)

Hi everyone,

Gordon here.

My sincere apologies for the delay in this update for **2020 Cricket trading**, it is my fault entirely.

Unfortunately it transpired that the English 2020 matches are not to be used for this system, and as the Indian 2020 season had come to an end, we had no option but to put the review on hold until the start of next season, when the review will recommence.

ABSX Review – It's a volatile world in the BST review pages. On Sunday Gordon asked me to put this message in this week's newsletter:

- 28 Day Update - WOW! You Need To Read This!

That's right time really does fly doesn't it?

It's already been 28 days since the review of ABSX System X IV started, head on over to see how it's getting on and what Sergeant Tommy have to say about it.

<http://www.bettingsystemtruths.com/tag/absx-system-x-iv/>

As you know, over at "Review Towers" headquarters we review all of the latest betting products, so that you don't have to spend a penny.

They are thoroughly put through their paces by our Inspectors and sergeants and the review of ABSX System X-IV is no different.

Following the controversy surrounding its launch, we decided to let the product speak for itself, and boy, are we glad we did!

Currently, just 28 days into the review, the profit generated by ABSX System X-IV is over 70 pts!!

So don't spend a penny until you read what Sergeant Tommy has to say.

<http://www.bettingsystemtruths.com/tag/absx-system-x-iv/>

You can even have a say and tell us what you think. We appreciate your input. So don't be afraid to have your say.

So head on over to find out exactly what has been going on

<http://www.bettingsystemtruths.com/tag/absx-system-x-iv/>

Judging by the performance of ABSX System X-IV so far in its review, you will very glad you did!!

Talk Soon, Gordon.

By Tuesday morning the profit was down to 40.84 points – but still a great profit on a 100 point start.

If you have something to say, don't forget you can become a "ranter" on our Online Betting Rant site. If you think you have what it takes we'd love to hear from you... [Apply to be a Ranter here](#)
