BETTING SYSTEM TRUTHS & LAY THE ODDS

EDITION 102

EDITED BY JAMES

CONTENTS

INTRODUCTION

Hi Folks,

Welcome to the latest edition of the monthly Newsletter.

We have 4 New Reviews Golden Soccer, Odds On Ron, Colin Leafe Racing and ProBall Club. We also have 1 Final Review Auto Bet Wins which passed with a rating of 3 out of 5 stars.

With the football season starting soon we will be reviewing a number of new systems soon so look out for emails with details of those as they get underway. We also hope to have a few other new reviews for you.

We'd like to hear from you, please contact me by e-mail via the Bloggers Corner at news@bettingsystemtruths.com

New Reviews

Golden Soccer Star – Introduction

Sgt Rob Reviewing Golden Soccer Star

Dear all,

I am reviewing Golden Soccer Star, a product from the Steve Davidson stable.

Overview

Golden Soccer Star is for betting in the Correct Score market – either with online bookies or the exchanges – for selected games.

Games are selected by using a simple rule in the Golden Soccer Star manual. Alternatively selections are emailed to you by Steve – this email service is at an additional cost, and is only available to people who have purchased the Golden Soccer Star product.

If you are manually making your own selections, you go through the leagues that you want to bet on, and use a head to head comparison site on the internet (link given to you in the product) and apply your rule. Then you use 2 different odds comparison sites (again, links provided) to find out the best odds available for each correct score that we are going to bet on.

The leagues covered by the selections email are : English Premier, Scottish Premier, German Bundesliga, French Ligue 1, Spanish Primera, Italy Serie A and the UEFA Champions League.

Placing Bets

As mentioned earlier, once you have manually shortlisted your selections (or received the email), you then bet each match using either 5 pre-defined correct scores or 4...Betting only 4 involves dropping one of the 5 correct scores in an attempt to improve profitability and Return On Investment – see Past Performance section below.

Having used the odds comparison sites, you should be in the best position to maximise the profit on the 5 (or 4) correct score selections you have.

Bets are placed at level stakes – there are no reasons why you couldn't dutch them or use progressive staking.

When looking at odds on the Exchanges (Betfair, Betdaq etc), I will subtract 5% from the price to reflect the bog-standard commission charged.

Also if people use the exchanges, bear in mind liquidity may be an issue depending on the game selected and how early on you are trying to place your bet. As I am recording to £1 stakes (yes, Betfair does have a £2 minimum stake, but there's always ways and means...), it means I won't have any such liquidity issues for the review.

Lastly, the prices I show will be at the time I obtain them – whenever that is. They may have been higher before, they may be higher afterwards. That is always the way, so if your results differ from mine, then that will be why.

Past Performance

In 2011, there was 9 winning betting months out of 11. Using 5 bets per game and staking £1 on each bet (e.g £5 total) returned an overall profit of £4662.50 with an ROI of 116%. Using 4 bets per game and staking £1 on each (e.g. £4 total) returned an overall profit of £4625 with an ROI of 208%

The above results included winners at 1000/1 and 900/1.

For further information, click on the link to the Golden Soccer Star page at the bottom of this post.

Purchasing And Preparing For Use

The product costs £69.97 and is purchased via PayPal or Moneybookers. There are no refunds available.

Once purchased, you will be sent a link to a zip file which you download, unzip and run (after inputting a code that Steve will give you). You can then have the icon for Golden Soccer Star on your desktop. When you open it up, it is the eBook with the rules for the system. I believe it has been done this way to stop unlawful piracy of the product.

You may need to open up a few new bookie accounts online for this system to be most profitable. Some of the best prices from this system have come from bookies like TitanBet, Triobet etc. A lot of bets are available with good old fashioned bookies that I have used and recognised living here in the UK.

The selections email service is available at an extra cost to those whose who purchased Golden Soccer Star. A season long subscription costs £169.99, 3 months costs £69.99 and 1 month (auto-renewing) costs £29.99. The first two are both available via PayPal/MoneyBookers, the 1 month option, PayPal only.

Can Anyone Use This Product?

No football knowledge is required.

There is no requirement to follow live markets etc, so this system can be used by pretty much anyone as bets can be placed in advance of the kick off for each game. If you're using the selection email, all you need to do is use the odds comparison sites and then place your bets.

If you wish to manually find your selections, it took me (yes, I have had a go) about 5-10 minutes per league, the rule is that simple.

Details About My Review

I will be reviewing the selections that come through via email. As mentioned earlier, these will cover the English Premier, Scottish Premier, German Bundesliga, French Ligue 1, Spanish Primera, Italy Serie A and the UEFA Champions League.

I will also record results for the top leagues in Holland, Turkey, Portugal and Brazil, as well as the English Championship. These particular results won't form part of the

review, but I may comment on them from time to time as they are an informal way of seeing whether the Golden Soccer Star product is successful on other leagues.

I will use 2 betting bank of 500 points and equate 1 pt to £1 for each.

Bank 1 will be for using 5 correct score bets per game (hence we will stake 5 pts/£5 per game.

Bank 1 will be for using 4 correct score bets per game (hence we will stake 4 pts/£4 per game.

The review will initially be based on 56 betting days...if we have a day without bets, it won't count towards the review. When we have completed 56 betting days, the decision will be made as to whether we carry on to the 84 betting days timescale or not.

As usual, any comments then please shout!

Cheers for now,

See the Golden Soccer Star sales page here...

Sgt Rob Reviewing Golden Soccer Star

Odds On Ron – Introduction

21st August 2012

Sgt Colin Introduces Odds On Ron

Hi, Sgt Colin here, with my latest review for BettingSystemtruths.com. I am going to review the Odds On Ron betting system, a horseracing system which provides rules for selecting horses to win or place in afternoon races. Published by Paul Thistlewood, Odds On Ron comes on a "pdf", and costs £32.40 (although places are identified as limited). The advertising says that Paul will actually send his selections for 3 months, so you don't initially have to make selections (although I will be doing).

Without giving too much away,the Odds On Ron service requires you to make selections by utilising a single bookmaker's odds on races with up to 10 runners, placing win & place bets. The selection needs to take place prior to racing, but it is a "stop at a winner" system, using a loss recovery approach, so you will need to review results and place bets during the afternoon. I will also report on the performance of the system using level stakes (albeit on a stop at a winner basis).

As I write this, I have already been monitoring performance for 3 days.

I look forward to seeing how the system works over our trial period, which will initially be 56 days, and which may be extended to 84 days if the results are promising.

See the Odds On Ron sales page here...

Colin Leafe Racing Introduction

Sgt Howard reviews Colin Leafe Racing

Hi Bloggers,

My name is Howard and I'm 39 years old, live in the North West and have 20+ years betting experience. I have always taken a keen interest in Betting particularly Horse Racing. I only recently turned Professional last year. I have plenty of experience in both Backing, Laying and Trading.

Anyway on to the Introduction for Colin Leafe Racing

The Service

So what do you get for your money.   The Colin Leafe Racing service is operated through a low cost phone line via a secure individual pin number. All bets are supplied on a short message by calling at 10.30am (just changed from 10.15am). Colin states bets are recorded at odds every member can achieve (available with three or four bookmakers). I will obviously provide updates of how I find getting bets on at the prices.

Cost

The cost is currently £45.00 per month or £109 per three months.

Operating requirements

To operate all you would require is accounts with all the main bookmaker accounts.

Staking Plan and Betting Balance

Colin recommends a 50 points betting bank and all bets are clearly stated as 1 or 2 points.   I will operate two betting banks both of 50 points one following Colin's staking of 1 or 2 points (Betting Bank 1) and one level stakes of 1 point for all bets (Betting Bank 2).

Review updates

I intend to do updates daily / or every two days during the review.

The initial review of Colin Leafe Racing will last 56 Betting Days.

Regards

Sgt Howard reviewing Colin Leafe Racing

ProBall Club Introduction

August 23 2012

Sergeant Steve Introduces ProBall Club

Hi Bloggers,

Sgt Steve here, I have previously done reviews on LTO for Sports Betting Professor and Racing Tipsters and more recently Place Bet Pro, Cricket Tipster, Golf Betting Profits and Partners in Profit. Anyway, my name is Steve and I'm 42 years old and live in Melbourne, Australia. I have been interested in betting on horses for over 20 years now and have picked up sports betting as well in the past 5 or so years. I started doing sports arbitrage full time about 6 years ago and then moved to the UK and was trading horse racing for a couple of years. Back in Australia now and am still betting in my spare time and follow a couple of systems that seem reasonably good but haven't yet led me to the Holy Grail, betting being my source of income, which is my ultimate goal. Well my ultimate goal is to get my golf handicap into single figures but you get the gist, one thing follows another.

On to the introduction, ProBall Club gives the services of 5 separate tipsters for both Sports Bets (Football, Golf and Tennis) and Horse Racing, for both Back and Lay bets.

- The Golf tips service offers 2 main types of bets, outright bets (each/way) and 2/3 Ball Bets;
- Pro Tennis Tips – straight match win betting;
- Football Back Service – double chance bets, which covers both the team you are backing and the draw;
- Football Lays Service – laying the draw; and
- Racing Lays Service – lays low priced favourites.

There is also an additional tip that gives out what they call 'Profit/Perm tips' which seem to be accumulator bets. I will keep a record of these but at this stage won't be including it as part of the reporting process. Bets will be $100 on doubles and trebles and $50 on the accumulator so $1050 in total if 4 teams selected.

ProBall Club claims to have made £40,085.00 profit in first 7 months of 2012 at an average of almost £6,000.00 per month (to £100 stakes).

I will start with a $2000 bank and be having $100 win bets on all selections, except for the golf which I will start with $5000 as they may be more bets in that system. Therefore 20 point banks with a 50 point bank for golf. I may adjust this as the volume of tips are revealed (I don't know what I am in for yet!)

So you don't actually have to know anything about any of these sports to place these bets. You just wait for the email from ProBall Club and put them on. There doesn't appear to be a money back guarantee if you are not satisfied with this product. The cost is £47 per month all up.

Anyway, on with the show!

[See the Proball Club sales page here…]

Final Reviews

Auto Bet Wins Final Review

03/09/2012

Sgt Howard reviews Auto Bet Wins

PASSED AND APPROVED

Rating: ⭐⭐⭐☆☆

Just to recap what Auto Bet Wins is a system that is explained on a 26 page PDF created by Toby Maguire.   As in the words of the Author "the idea is that you will learn the formula so that you will never look to which horse is favourite for a race again, as you will always have your own favourite". You apply the system by manually applying ratings to Horses based on the Auto Bet Wins formula.

Cost

It can be purchased by Click Bank for £27.00 (and £5.40 Vat). There is a 60 day money back guarantee offered according to the vendor.

System requirements

To operate the system you'll need access to Racing Post Race Cards. You do not need to be paying a subscription to the Racing Post for the information you will need.

There are no restrictions as to when you apply the system so you could bet just week days or weekends etc. You could apply this system just using Bookmaker accounts or using just exchanges or both.

As this system requires you to apply ratings to each horse by working through the race cards, it takes a fair bit of operating time.   Because of this operating time it would be impossible to apply these ratings to all races.

Staking Plan and Betting Balance

There is no advised staking plan.

Therefore I decided I would show results using two seperate betting banks of 100 points each.

Betting Bank 1

For Betting Bank 1 Results were win only. The stake for each race were level stakes 5pts.

Betting Bank 2

Again I used level stakes of 5pts but in this case I bet each way only.

So onto the results for the trial period of 84 days:

Total bets   89

Wins   34

Losses   53

Broke Even   2

Total Points Staked   445

Strike Rate   38.20 %

R.O.I.   42.47%

(Both banks combined)

Betting Bank 1 at end of Review:

Start Balance: 100 Pts

Final P/L: 75.79 Pts

Final Balance: 175.79 Pts

Betting Bank 2 at end of Review:

Start Balance: 100 Pts

Final P/L: 113.19 Pts

Final Balance: 213.19 Pts

Below I will give you a break down of my conclusions of the Service to provide my reasoning of the overall rating.

Profitability

Based on my review period results representing roughly a quarter of a year (going on 21 betting days on average a month) you could expect an annual profit of around 755.92 points. Here are a few examples of what the estimated profit would be for a year on my results:

£1 per point: £755.00

£5 per point: £3775.00

£10 per point: £7550.00

So betting £5 per point you would be betting £25 per race and on the staking plans I used you would need two betting banks of £500 pounds each to generate a yearly profit of approximately £3775.00. Over £300 a month not to shabby. Of course you could use compounding to alter the results, different staking plans etc. It's worth remembering to produce these results I bet very cautiously and often applied the Auto Bet Wins plan to races but then did not bet if the figures did not come out favorably.   If a follower of this system bet in every race they applied the ratings to they may come out with very different results.

Profitability rating 4 out 5

Operating the service

There is no doubt in my mind that this system will point you towards value bets on occasions and any bets you place from following this system will be based on fairly sound reasoning. Having used the system for some time now I think PDF is certainly open to subjective interpretation.   I think at the very least a Novice Punter would find it both very time consuming (at first) and problematic in interpreting some of the guidelines relating to certain categories.   It took me on average 45mins to apply these ratings to one race (on average of 8 runners). To rate lots of races or races with large fields would be very time consuming. My main worry is that differing views on how you apply the ratings would result in very different final ratings.   That said the system is basically sound in that it is applying numerical values to the race card data. Any form student would be able to recognize some merits to this system.

Operating the service rating 1 out of 5

Return on Investment

Based on my review staking plans here are some examples of estimated return on investment for the quarterly review period:

£1 per point: Staked £445.00 to win £188.00 (£5 per bet)

£10 per point: Staked £4450 to win £1889.80 (£50 per bet)

It's fair to say my review has produced an excellent return on investment at over 42%. The problem is replicating these figures as stated above in Operating the Service.

Return on Investment rating 3.5 out of 5.

Risk

Risk was never much of an issue using my staking plans during the review. The worst position either of the Betting Banks were in was a percentage loss of less than 11%.   I was effectively betting 1/20th of my betting bank on each selection which is hardly over cautious staking.

Risk rating 4 out of 5

Support and Documentation.

Support wise I can only state there is no attached contact details of the vendor in the PDF and that the support link on the sales page does not work, make of that what you

will.   Although there is a money back guarantee of 60 days. As I have mentioned already in operating the system I didn't find operating the system that easy but my interpretations of the rules of the PDF certainly produced good results. I would be happy to answer on questions on this as best as I can from anyone who has purchased the system.

Support and Documentation rating 2 out of 5

Therefore the overall rating for **Auto Bet Wins** based on my conclusions averages out at **3 out of 5**.

Regards

Sgt Howard reviewing Auto Bet Wins

League Table of Reviews   _Return_ ↵

A reasonable way of comparing the performance of systems is to work out the profit (or loss) as a percentage of the starting bank. Obviously this table doesn't replace reading the reviews, because _profit as %age of bank_ is not the only factor in judging a system. Nevertheless, it is a valid at-a-glance way of bringing the mass of data together.

The league table now includes systems that have finished their reviews as well.

We have twenty six reviews that have made a profit of over 15%.

System Reviewed	Start Bank	Total Profit /Loss	Profit as %age of Bank	Position Last Month	Position This Month
Betting Bubbles	50	148.75	297.50%	1	1
