Golden Soccer Star - Final Review

Sgt Rob Passes Golden Soccer Star

Rating: 

Overview

If you need to familiarize yourself with Golden Soccer Star, please click [here](#) for the introduction post.

The system targets 5 different bets overall. I am going to refer to them as Bet A, Bet B, Bet C, Bet D and Bet E. For the 5 bank betting, we back all bet types. For the 4 bank betting, we drop Bet B and bet on the others.

The above may sound cryptic, but it's not for me to give out any more information about the product then I need to.

Amendment To Results From Final Post

When writing this final post, I started a fairly time consuming process of checking and double-checking the results I had for this system on my Excel spreadsheet.

I have the following amendments to make :

- i) Credit of +9.50 pts (+£9.50) to both 4 bet and 5 bet banks due to not including the result of a game in the French Championnat at the end of November that finished with Bet A being successful
- ii) Credit of +20.00 pts (+£20.00) to 5 bet bank...I somehow managed to deduct 20 pts stake from the 5 pt bank for 4 games played in the Brazil Serie A (which was a league I was monitoring for my unofficial review).
- iii) Credit of +16.00 pts (+£16.00) to the 4 pt bank for the same reason as ii).

Therefore the final review totals are as follows :

BST Newsletter © BettingSystemTruths 2013

5 bet bank : £1170.65 meaning a profit of £670.65 on the starting bank of £500

4 bet bank : £1199.50 meaning a profit of £699.50 on the starting bank of £500

Breakdown Of Results

League	Bets	Bet Returns	Bet A	Bet B	Bet C	Bet D	Bet E
England	93	£528.57	£122.90	£97.89	£125.78	£182.00	£0.00
Italy	84	£276.00	£38.00	£63.50	£123.50	£51.00	£0.00
France	69	£1,351.35	£66.35	£62.30	£112.70	£110.00	£1,000.00
Spain	65	£233.69	£43.50	£75.14	£34.05	£81.00	£0.00
Germany	64	£254.95	£69.00	£67.75	£47.20	£71.00	£0.00
Scotland	54	£207.57	£84.00	£44.57	£79.00	£0.00	£0.00
Champ Lg	11	£18.52	£0.00	£0.00	£18.52	£0.00	£0.00
Total	440	£2,870.65	£423.75	£411.15	£540.75	£495.00	£1,000.00

This gives a breakdown of all bet returns (without stakes) per bet type.

For example, in France, we bet on 69 different games, and the bookies/Betfair paid us £1,351.35 - The columns for Bet A to Bet E then explain how that total is broken down.

League	Bets	Win (5 bank)	Stk (5 bank)	P/L (5 bank)	Win (4 bank)	Stk (4 bet)	P/L (4 bet)
England	93	£528.57	£465.00	£63.57	£430.68	£372.00	£58.68
Italy	84	£276.00	£420.00	-£144.00	£212.50	£336.00	-£123.50
France	69	£1,351.35	£345.00	£1,006.35	£1,289.05	£276.00	£1,013.05
Spain	65	£233.69	£325.00	-£91.31	£158.55	£260.00	-£101.45
Germany	64	£254.95	£320.00	-£65.05	£187.20	£256.00	-£68.80
Scotland	54	£207.57	£270.00	-£62.43	£163.00	£216.00	-£53.00
Champ Lg	11	£18.52	£55.00	-£36.48	£18.52	£44.00	-£25.48
Total	440	£2,870.65	£2,200.00	£670.65	£2,459.50	£1,760.00	£699.50

This table incorporates Profit/Loss figures for both 4 and 5 bet banks...

BST Newsletter © BettingSystemTruths 2013

For example, in the German Bundesliga, there were 64 matches bet on. The 5 bet bank returns were £254.95 but we staked £320 to get them so had a loss overall of -£65.05. The 4 bet bank returns were £187.20 but we staked £256 to get them so there was an overall loss of -£68.80.

Initial Conclusions?

Looking at the 2nd table, it's clear to see that we only made a profit on 2 leagues, the English Premiership and the French Championnat.

The French results were undoubtedly aided by 1 huge winner of the Bet E type at 1000/1.

Some people may well look at this and say "but if you didn't have that big winner, you wouldn't have any profit" (or words to that effect). However, the product tries to sniff out big winners and it found one here, so I am entirely comfortable with that.

So initial conclusion is profit of £670.65 on 5 bet bank and £699.60 on 4 bet bank is good.

Subscription Costs

The review took place from 18/08/2012 to 10/02/2013, just shy of 6 months.

The cost of the Golden Soccer Star product (back on 18/08/2012) was £69.97...this gave the user the information to manually find his/her bets.

There was an option of having the selections emailed to you - these were at an additional cost as follows :

Season Sub @ £169.00

3 Months @ £69.99

1 Month @ £29.99

I am happy that using any combination of the above options to cover the 6 month review period, and also including the initial product outlay, still leaves us with a sizeable profit for the review period.

Time Spent Finding And Placing Bets

Finding Bets

If you don't have the selections emailed to you, you need to find them yourself. Which means checking fixtures on a daily basis for the top leagues in England, Italy, France, Spain, Germany and Scotland. You also need to check for Champions League fixtures.

This can be a little time consuming...you need to check each match to see if it fits the rules and make a note of it...there can be an abundance of matches on a Saturday and the time taken to do it can depend on many things - user speed on the computer, speed of the computer you're using and broadband speed are things that come to mind. I would work on one league at a time and open up the games in different tabs (in batches of 3)...my computer seemed able to cope with this and you get into a bit of a rhythm after a while.

It is worth noting that you can work out selections in advance...e.g. if games are taking place on a Saturday, there's nothing to stop you doing the selection process from the Monday beforehand onwards.

BST Newsletter © BettingSystemTruths 2013

So considering the speed factors above may help you to decide if you want to opt for the additional expense of having the selections emailed to you.

Placing Bets

So now you have your selections. All you have to do is now find your odds and place your bets...

I started off using both the 2 recommended odds comparison websites as well as BetFair. However, one of the odds comparison websites wouldn't load after about a month into the trial. I tried different internet browsers, tried it on my mobile phone using different WiFi sources but to no avail. It then reappeared briefly for a little while before disappearing off the internet completely - even Google can't find it!

This site was oddsfinder, and it was quite useful for getting higher prices for Bets C, D and E.

Without this, I used oddschecker (as advised) and then used triobet to find prices for Bets C, D and E. I then used BetFair to check the prices (with 5% commission deducted), and used the highest price I could find for each Bet type.

The time frame for placing bets is a bit more limited then it is finding the selections. You need to have most, if not all, of the bookies having put prices up for the market you're interested in. If it's a game on Saturday, it may not be until Weds/Thurs that this happens.

Another thing to consider is that you may well need a large range of bookies accounts. From memory alone, I had BetVictor, Ladbrokes, Bet365, Sporting Bet, BetWay, Coral, Paddy Power, Bwin, Triobet and Stan James routinely cropping up.

Another factor is what you are going to stake...I did the review based on £1 stakes. One reader said he could only place 50p stakes on the Bet E type bets, another reader said he had no such problem.

If you are placing bets at up to 1000/1 you need to expect to keep your stakes relatively low.

A Last Statistical Summary

The review took place from 18/08/2012 to 10/02/2013, a total of 176 days. There were 87 betting days in that period.

The 5 bet bank started at £500 and finished at £1170.65, a profit of £670.65 representing a 134.13% increase on the initial bank.

The 4 bet bank started at £500 and finished at £1199.50, a profit of £699.50 representing a 139.9% increase on the initial bank.

In terms of ROI, for the 5 bet bank we staked a total of £2200 and won £2870.65, a profit of £670.65 representing an ROI of 30%.

For the 4 bet bank, we staked £1760 and won £2459.50, a profit of £699.50 representing an ROI of 39.74%.

League Table of Reviews

[Return](#)

A reasonable way of comparing the performance of systems is to work out the profit (or loss) as a percentage of the starting bank. Obviously this table doesn't replace reading the reviews, because profit as %age of bank is not the only factor in judging a system. Nevertheless, it is a valid at-a-glance way of bringing the mass of data together.

The league table now includes systems that have finished their reviews as well.

We have thirty four reviews that have made a profit of over 15%. And we have a new number one and two but will they stay there we shall have to see.
