Golden Key Method 2 Updated - Day 76

March 21st 2013

Golden Key Method 2 Updated - Day 76

Hi Folks

Once again only 19 selections and with just 2 winners Variation 1 returned a loss of 1.54 points but Variation 2 managed to come away with a profit of 1.43 points.

Day 76 March 21st 2013

Variant 1 = minus 1.54 points

Running Bank = 239.41 points

Variant 2 = + 1.43 points

Running Bank = 250.67 points

Starting Bank on both is 100 points.

Betfair Domination Introduction

Sgt Howard reviews Betfair Domination

Hi Bloggers,

My name is Howard and I'm 40 years old, live in the North West and have 25 years betting experience. I have always taken a keen interest in Betting particularly Horse Racing. I only recently turned Professional a couple of years ago. I have plenty of experience in both Backing, Laying and Trading.

The System

Anyway on to the Introduction for Betfair Domination. Betfair Domination is a betting system created by JLC Marketing the people behind Place Bet Pro and BetInfo24. The system is a Horse Racing win and place backing system explained on a 35 page PDF. I will only be testing the system on UK Horse Racing. The system itself appears straight forward to operate and shouldn't be too time consuming but once I have been operating it for a while I'll state how long it's taking me during the review updates.

Cost

Betfair Domination can be purchased via PayPal for a one off fee of £77.00.

System requirements

To operate Betfair Domination you'll need access to Betfair and the Racing Post. You do not need to be paying a subscription to the Racing Post for the information you will need. The Author states the system is best operated during the morning.

Staking Plan and Betting Banks.

BST Newsletter © BettingSystemTruths 2013

I will operate two betting banks one (betting bank 1) following the authors staking advice and one (betting bank 2) using level stakes. Without giving too much away it must be stated that the whole basis of the system is based around the authors staking but I still think it will be beneficial to keep comparable level stakes results.

Betting Bank 1

I'll be following the authors advice and staking 12pts per day on three selections. I'll be using £10 per point and start with a £1000 betting bank. All bets will be placed at current prices on Betfair.

Betting Bank 2

I'll use the same size betting bank for ease of £1000 but will be betting £20 per point. I'll be betting three selections a day at 1pt win and 1pt place with all prices at Betfair SP.

Review updates

I intend to do updates daily / or every two days during the review.

The initial review will last 56 Betting Days.

Regards

Sgt Howard reviewing Betfair Domination.

Racing Dossier - Introduction

24th March 2013

Sergeant Lucian - Introduces The Racing Dossier

Hi Bloggers,

Here is my second review on a Michael Wilding product - Racing Dossier.

This piece of software can analyze a race on many factors as user set or it can be run with 2 race cards systems available on the site and which are recommended. Also is one free race card for trial. Race card can contains many criteria on analyze a race: age, weight, penalty, jockey claim, headgear, beaten favourite, etc - 490 Ratings Available . Selections identified can

BST Newsletter © BettingSystemTruths 2013

be exported in three ways: RaceAdvisor Export Files, GHB CSV File and BetDynamic CSV File. Also if you already have Betting Speed Evolutions license you will also find a tab with BSE.

There is a support page where you can find all data about this products in videos with all its capabilities. Values on this kind of products came from all filters and criteria for making a system or implementing one. Also on Forum you will find many ideas, tests and discussions on systems and can make suggestions for future improvements.

From install and operate with Racing Dossier things are simple and good explained on videos. Videos cover all steps - Setup and Installations, Overview, Creating Race Cards, Using Race Cards, Exporting Data, Filters, Rating Descriptions. Also you will find The Ratings - a pdf file with all ratings description implemented on software. From The Ratings a user can realize if the software has what he need to operate his own system, create systems or implement a currents system in order to save time to operate.

We will evaluate this software with the two systems from seller available for full software license. Also is a race card system, BEPFP System, available for trial version.

Before I start to describe the two system I want to let you know that the price options are monthly at £ 19.75 and quarterly at £ 49.75.

So full license capabilities are: 490 Ratings, Unlimited Race Cards, Unlimited Filters, Contender Highlighting, Selection Marking, Data Exporting, Historical Ratings, Selection Export.

Now about the two systems with which will try to reach profit.

In Form Fancies and **Speedy Topweights**. For both the starting bank will be 100 and level stake will be the choice. Both systems has clear rules and not provide selections from one click. The software not provide selections from one click - selections process differ from a system to another. Also as I did on the Betting Speed Evolutions final review maybe I can suggests some odds rules in order to maximize the profit.

Thank you for your time and I hope you enjoy the review.

Colin Leafe Racing Final Review

Sgt Howard reviews Colin Leafe Racing

Hi Bloggers,

Lets re-cap what you get for your money:

The Service

The *Colin Leafe Racing* service is operated through a low cost phone line via a secure individual pin number. All bets are supplied on a short message by calling at 10.30am. Colin states bets are recorded at odds every member can achieve (available with three or four bookmakers). I can confirm this as I had no problem achieving the prices often bettering them, and that's with me having no access to a couple of bookmakers who have closed my accounts.

Cost

The cost is currently £45.00 per month or £109 per three months.

Operating requirements

To operate all you require is accounts with all the main bookmakers and to be available to phone at 10.30am.

Staking Plan and Betting Balance

Colin recommends a 50 points betting bank and all bets are clearly stated as 1 or 2 points. I operated two betting banks both of 50 points one following Colin's staking of 1 or 2 points (Betting Bank 1) and one level stakes of 1 point for all bets (Betting Bank 2). So onto the results.

Results

I followed the Service for 170 days this was to fulfill 88 betting days as we had 82 no bet days.

BST Newsletter © BettingSystemTruths 2013

Number of bets : 126

Number of winners: 29

Strike Rate 36.54%

Average price 3.83-1

Bank 1 Start Balance: 50 PTS

Final Balance: 44.08 PTS

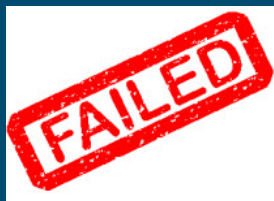

Bank 2 Start Balance: 50 PTS

Final Balance: 56.53 PTS

So a small loss on Bank 1 to Colin's advised staking and a small profit on level stakes staking. Once you take into account though the cost of the service at even the cheaper option of a three month subscription you'd have to be staking £50 minimum at level stakes to have made a profit. and even then the profit would have been very small. This is of course is not taking into account that you would be more likely to have followed the advised staking in any case and made a loss.

Over a 170 betting days I'd have wanted to have seen a much better profit. The Service did in fact start very well and incidentally after the review finished fired off a few days of profit. To give a backing service as such as this a fair chance I'd say you'd need to give it at least 3 months ideally more as there will undoubtedly be losing runs.

On the plus side the service is easy to use and certainly not time consuming nor hard to get your bets placed (unless using large stakes). But sadly the service has to go down as failed as ultimately it comes down to profit and loss, and on this the Service has not performed well enough over the review period.

League Table of Reviews

[Return](#)

A reasonable way of comparing the performance of systems is to work out the profit (or loss) as a percentage of the starting bank. Obviously this table doesn't replace reading the reviews, because *profit as %age of bank* is not the only factor in judging a system. Nevertheless, it is a valid at-a-glance way of bringing the mass of data together.

The league table now includes systems that have finished their reviews as well.

We have thirty six reviews that have made a profit of over 15%.
