# Partners In Profit Introduction

**21st January 2012**

## ***Insp Nige Introduces Partners In Profit***

Hi there bloggers – Inspector Nige here for my first ever review!

I am in middle management and have been betting / investing for approximately 10 years now with some modest and increasing success.

'Partners In Profit' is an easy to understand horse backing system. The product is an e-book written by Phil Eadie and promoted by the Betorbet website. In short the system totally relies on the combination between trainers and certain jockeys while taking into account other important factors such as courses, going, distance and odds. The e-book has simplistic tables which clearly explain if a horse qualifies as a bet.

Partners In Profit is a one-off payment of £37 and this has all the information to allow you to select the qualifying horses to back for that day. It is suggested that Betfair SP will provide additional profits due to the increased odds and therefore I intend to work out the profits/loss using these figures.

I will be using the recommended 50 points staking plan starting with a 100 point bank, therefore 2 points per selection.

The system will also take the hard work out of finding these runners and send you a daily email for £17 a month. There is also a full money back guarantee.

I intend to review for 56 betting days. It is claimed that Partners In Profit made over £8,000 to £10 level stakes in 2011 so hopefully this will be a gem!

Speak soon.....

# Cricket Tipster Introduction

**19th Jan 2012**

## ***Insp Steve Introduces Cricket Tipster***

Inspector Steve here, I have previously done reviews on LTO for Sports Betting Professor and Racing Tipsters but this is my first in a while. I am also currently conducting a review on BST as well for Place Bet Pro. Anyway, my name is Steve and I'm 41 years old and live in Melbourne, Australia. I have been interested in betting on horses for over 20 years now and have picked up sports betting as well in the past 5 or so years. I started doing sports arbitrage full time about 6 years ago and then moved to the UK and was trading horse racing for a couple of years. Back in Australia now and am still betting in my spare time and follow a couple of systems that seem reasonably good but haven't yet led me to betting being my source of income, which is my ultimate goal. Well my ultimate goal is to get my golf handicap into single figures but you get the gist.

Anyway, on to the introduction. Cricket Tipster is a product from a bloke called Anth Raine, who claims he is a "disillusioned ex Ladbrokes manager who uses inside knowledge to profit big (Classic tale of gamekeeper turns poacher)". Perhaps I'll be the judge of that!

Cricket Tipster is a tipping service for cricket which has regular email advice and backup information via a members area on the website (which I have never used, the tips always arrive in the inbox with upwards of 12 hours to spare). This system is simple to use and claims to consistently find winners at 7/2 and over.

You don't actually have to know anything about cricket to place these winning bets. I have to fess up here, I was already on a one month trial before I agreed to do this review. I was probably going to renew after that month so time will tell. Also there is a 100% money back guarantee if you are not satisfied with this product. The cost is £7 for your first month and £37 per month thereafter. We'll start off with a betting bank of 100 points with stakes advised by the vendor.

# Greyhound LayPRO – Introduction

**16th January 2012**

## **Sergeant Lucian - Introduces Greyhound LayPRO**

Hi Bloggers,

**Greyhound LayPRO** is a piece of software from the Steve Davidson Stable and is created by Steve and Kevin from [Racing and Sport Software](#).

This software rates dogs on each greyhound track and from these ratings it selects some lay bets. The price of the *Greyhound LayPRO* software is 19.99 pounds and you get one license for one computer.

The initial review of Greyhound LayPRO will be for 56 "betting days", and may be extended to 84 "betting days", depending on its performance.

**The initial bank will be 100 points and 1 point level stake with 10.0 as maximum odds as vendor recommends.**

For this review I'll use [Grey Horse Bot](#). The bot is set to enter in market with 33 seconds before the start.

Thank you for your time and I hope you enjoy the review.

# Lets Get Layed – Final Review

22nd Jan 2012

### *Sgt Tommy reviews Lets Get Layed*

**PASSED AND APPROVED ★★★★★**

Hi Bloggers,

So we come to the end of the '*Lets Get Layed*' review. We started with 3 separate systems and 3 separate banks of 200pts each.

The 'Lets Get Layed' original system was unfortunately suspended after a few weeks and finished with a bank of +94.95pts with a loss of -**105.05pts**. Obviously this failed the 12 week review.

'System 3', the 'bonus lay' system ended the review with a bank of +208.30pts, a small profit of **+8.30pts** over the 12 weeks. This ended in profit thanks to day 84 out of 84 giving +11.40 pts, otherwise the system may well have ended in negative figures.

Again if I had been testing this system alone, it would have been very much in the 'neutral camp' with definite recommendations for further testing to be carried out. (This is in fact what Dave (vendor) will be doing with this system)

So we come to the 'handicapped horses' system which ended the review with extremely nice figures, a closing bank of +352.25pts which is a profit of **+152.25pts** over the 12 week period.

This was betting at level stakes of 2pts on each selection, so obviously the level stake profit would have been **+76.12pts** starting with a 100pt bank.

So a 76% return on investment after 12 weeks. Not too shabby!

Obviously the 'handicapped horses' system has passed the trial with flying colours and would be my idea of an ideal laying system to follow for many weeks and months to come. With this in mind, I will be following this particular system closely over the next few months and reporting back with monthly updates as necessary.

Dave has also kindly provided a spreadsheet of liability staking, 5%, 7.5% and 10% for the last 4 months which is detailed below.

[Spreadsheet](#)

### **'Handicapped horses system'**

In total there were 307 selections over the 12 weeks for this system. We had 265 winning lays out of these which is a strike rate of 86.31%. That is an average lay price of 6.28 for each selection. The longest losing run was 2 which happened only twice in 84 days. The longest winning run was 24 straight winning lays between 25th Nov and 6th Dec. We also had several winning runs of 10 or 12 straight lays.

That would be my idea of consistency!

So to sum up.

I have no problem in recommending the **'handicapped horses'** system as a definite addition to the betting armory. I would have given this a score of 5 stars if this had been the only system under review.

I did have the other 2 systems to score also which did not do so well so I am therefore giving a final mark of 4 out of 5 stars.

This includes the very good customer service given by Dave and his team as well as the consistency of the system.

At the moment there is a 7 day free trial of the service and then a monthly payment of 39.99GBP Dave (the vendor) has kindly offered a 10GBP monthly discount to any BST readers who enter the code 'GETLAYED' when signing up.

### **Review Manager note:**

This is a tricky one to rate as there are three separate tipping systems. Tommy's rating of 4 stars for Lets Get Layed is basically for the successful "Handicapped Horses"

Please bear in mind that the original system made a large loss and "failed" the review. The "Bonus Lay" only made a small profit and would have been given a neutral rating. When considering our final rating of 4 stars, please bear the above in mind.

## League Table of Current Reviews

[Return](#) 

A reasonable way of comparing the performance of systems is to work out the profit (or loss) as a percentage of the starting bank. Obviously this table doesn't replace reading the reviews, because *profit as %age of bank* is not the only factor in judging a system. Nevertheless, it is a valid at-a-glance way of bringing the mass of data together.

I've colour coded the reviews that are the currently most successful, with the colour of their profitability graph (next newsletter section) to make them easier to spot.

This week, I've taken off reviews that have finished. Magic Backing Bot still leads the way. Two new reviews, Greyhound Lay Pro and Place Bet Pro have started off very well.

# Profitability Graph

[Return to Contents/Index](#)

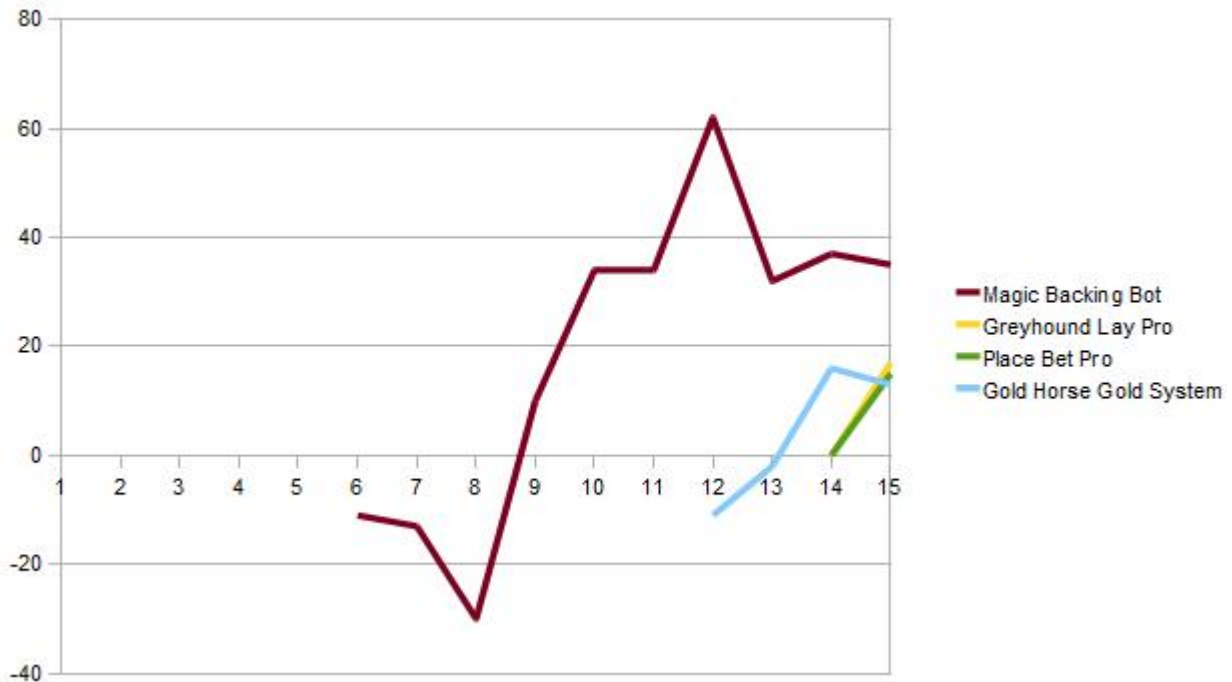

Here is a graph of the profit being made by the front-runners as a percentage of their starting bank. This gives a week by week comparative view of their progress.

It gives a representation of the volatility or dependability of each system. Ideally we would want a graph that increased each week by roughly the same amount. If a system or tipping service could produce that, then we would really have a winning review!

This week, I've taken off reviews that have finished. Magic Backing Bot still leads the way. Two new reviews, Greyhound Lay Pro and Place Bet Pro have started off very well.
